Strategic Plan 2025-2029

In line with its renewed vision and long-term commitment, BBVA has announced an investment of over 100,000 million pesos in Mexico for the 2025–2029 period. This investment aims to strengthen the bank's leadership within the financial system, accelerate digital transformation, and deepen its social and economic impact.

This new strategic phase is guided by the bank's renewed purpose:

"Support your drive to go further."

This purpose reflects BBVA's dedication to acting as a close, trustworthy, and proactive partner in its clients' lives.

The strategic plan will be structured around six priorities:

- 1. Embed a Radical Client Perspective (RCP) in All We Do
- 2. Boost Sustainability as a Growth Engine
- 3. Scale up All Enterprise Segments
- 4. Promote a Value and Capital Creation Mindset
- 5. Unlock the Potential of AI and Innovation through Data Availability and Next Gen Tech
- 6. Strengthen Our Empathy, Succeed as a Winning Team

All of the above will be anchored in the following institutional values:

These values inspire a collaborative, innovative organization that is deeply committed to the well-being of its customers and of society as a whole.

This strategic plan reflects BBVA Group's strong confidence in Mexico as one of its core geographies and reaffirms its role as a driver of economic progress, technological innovation, and social transformation.

Highlights

Results and Activity - First Semester 2025

BBVA Mexico, S.A., a Multiple Banking Institution, BBVA Mexico Financial Group (hereinafter, "BBVA Mexico"), reports a strong commercial performance and sound asset quality for the first half of 2025, despite a period marked by volatility, uncertainty, and a challenging international environment, compounded by the ongoing downward interest rate cycle. The bank remains committed to delivering value to its clients, consolidating its position as a key player and market leader within the Mexican financial system.

As of June 2025, BBVA Mexico's total loan portfolio reached 1,960,005 million pesos, reflecting an annual growth rate of 11.5%. This expansion was driven by broad-based growth across both the commercial segment and lending to individuals and households. Corporate lending increased by 12.5%, fueled by the positive momentum of mid-sized enterprises and the implementation of targeted commercial strategies focused on wholesale clients.

One of BBVA Mexico's strategic pillars is support for SMEs, whose loan balances reached 147,962 million pesos at the end of the first half, with year-over-year growth of 19.6%. This result reinforces the bank's commitment to small and medium-sized businesses, in line with the objectives of the Federal Government's "Plan Mexico" to expand access to credit and promote their formalization and digitalization.

Through the "Banco de Barrio" program, BBVA Mexico has brought over 461,000 microenterprises into the banking system, deployed more than 330,000 point-of-sale terminals, and consolidated a specialized support network. These actions have driven digital transformation and inclusion within this key sector of the country's development.

Financing for individuals and households maintained a solid trend, with an annual increase of 11.4%. Notable growth was recorded in payroll and personal loans (11.6%), credit cards (13.6%), and auto loans (23.6%), a segment in which BBVA Mexico maintains market leadership. In the mortgage segment, the institution reaffirms its position as the dominant issuer among multiple banking institutions, granting one out of every four mortgages.

As for customer deposits, BBVA Mexico reached a balance of 1,912,632 million pesos, with annual growth of 13.9%. The strength of demand deposits (84% of the total) allows the bank to maintain an efficient funding structure, a key factor in supporting credit expansion. It is crucial to highlight that as of June 2025, the loan-to-deposit ratio stood at 102%.

During the first half of the year, BBVA Mexico achieved a net profit of 49,443 million pesos, an annual increase of 7.7%. This was driven by a solid net interest income (+8.0%), higher commission income (+5.7%), and an outstanding performance in intermediation (+33.8%). The bank reports a return on equity (ROE) of 27.2% and an efficiency ratio of 32.9%, consolidating its position as one of the most profitable and efficient institutions in the Mexican financial system.

Maintains prudent and stable indicators in asset quality: NPL ratio at 1.7% and coverage ratio at 186.0%, reflecting disciplined risk management. As of the first half, the bank maintains a solid capitalization level of 20.1%, above the regulatory minimum, guaranteeing solvency across various economic scenarios.

Digital Strategy

A core strategic strength of BBVA Mexico, as a prominent subsidiary of the BBVA Mexico Financial Group, has been its commitment to digitalization. The entity consistently expands access to its products and services through digital platforms, thereby establishing itself as a benchmark in technological innovation by delivering agile, secure, and efficient experiences via its mobile applications and online channels.

This approach has led to sustained growth in the use of digital channels, reaching 25.7 million mobile customers at the end of June 2025, which represents an 8.6% increase compared to the same period last year. This volume accounts for 78% of the total customer base, confirming the growing preference for digital channels.

Digitalization has also transformed how clients interact with the bank. During the first half of 2025, BBVA Mexico managed 2,238 million financial transactions, representing a 10.7% annual increase. Of these operations, 72% were conducted via mobile app and website, significantly surpassing the 69% recorded in June 2024.

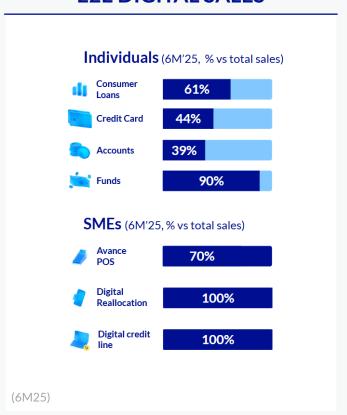

The bank reinforces its digital leadership by fully integrating these channels into its commercial processes: in the first half of 2025, 90% of fund sales, 61% of consumer loans, and 39% of account openings were carried out completely digitally.

BBVA Mexico's digital transformation endeavors to anticipate client needs, integrating innovation with functionality and efficiency. This strategic approach facilitates the provision of adaptable and secure financial solutions, consistent with contemporary user interaction paradigms.

E2E DIGITAL SALES

Innovation

BBVA Mexico launched a digital advisory tool to grow money and overcome the fear of investing

In Mexico, only 2 out of 10 people with access to banking services invest, as it is widely believed that such activities are exclusively for experts or require substantial capital. BBVA Invest is a simple tool within the BBVA Mexico app; through this development, people can start growing their savings without complications, with just a few clicks they can put their capital to work.

With BBVA Invest, the financial institution seeks for more people to discover how easy it is to invest in diversified global portfolios and grow their money.

BBVA Invest allows immediate investment from a cell phone, with the technology component and the accompaniment of experts from the financial institution. The bank prioritizes its clients, promoting investment to strengthen their financial future.

BBVA Mexico, the first bank to offer financial education in Mexican Sign Language

BBVA Mexico, through its Financial Education area, reaffirms its commitment to financial inclusion by launching a series of audiovisual materials aimed at people with hearing disabilities who speak Mexican Sign Language (LSM). This initiative seeks to provide knowledge, tools, and resources on financial concepts such as the institution's products, services, processes, and service channels, thus fostering their personal and economic autonomy without the need for intermediaries.

Aware that deaf people require the accompaniment of an interpreter to access financial information, BBVA Mexico, a pioneer in this segment, has developed audiovisual materials in LSM, designed to facilitate the understanding of key topics, promoting greater financial inclusion and supporting this community in making informed decisions.

BBVA Mexico, through its Financial Education area, has demonstrated a strong commitment to promoting inclusion as a fundamental pillar of the Financial Group's strategy, aligned with the mission of generating opportunities and reducing inequalities. Through this initiative, the institution strengthens its efforts to promote financial inclusion in the country, consolidating its leadership as an entity that promotes economic well-being, ensuring that no one is left behind and building a more inclusive and accessible future for all.

Sustainability

Strategy¹

Promoting sustainability as a driver of growth is a strategic priority of the **BBVA Group** of which we are a part. The roadmap to achieve this goal has two main objectives:

BBVA Group Objectives					
Promoting new businesses through sustainability	BBVA transition plan				
Channeling	Emissions reduction				
New goal of sustainable channeling from 2025 to 2029: 700 billion euros	Objectives of intermediate decarbonization by 2030 for high-emission sectors				
Opportunities in the areas of climate, natural capital and social	Oil and gas, electricity generation, automobiles, cement, steel, coal, aviation, shipping, real estate (residential and commercial), and aluminum manufacturing.				

BBVA Mexico has channeled 222,453 million pesos, including the environmental and inclusive growth axis, accumulated as of the end of June 2025.

BBVA Mexico's Sustainable Canalization Advances

^{*}Preliminary information on sustainable financing for individuals, companies, as well as green and social bonds updated as of 2Q25.

In cases where it is not feasible or there is not enough information to allow an exact distribution between the climate change and inclusive growth categories, internal estimates are made based on the available information.

Includes primarily products whose funds are used for activities considered sustainable (according to both internal and market standards, existing regulations and best practices), as well as products linked to sustainability (according to both internal and market standards and best practices), such as those linked to environmental and/or social indicators.

¹Information updated as of 2025 according to BBVA Group Sustainability Strategy.

Government model

To implement its sustainability strategy, BBVA Group has a global governance model with a cross-cutting approach that permeates the organization from the Board of Directors onward. In Mexico, there is a Local Sustainability Area composed of a Local Sustainability Office and 18 workstreams made up of various specialized areas of the bank.

Commitment to sustainability

The BBVA Group is a member and signatory of the following UNEP-FI (United Nations Environment Programme Finance Initiative) initiatives:

- Net Zero Banking Alliance BBVA Group
- Principles for Responsible Banking (PRB)- BBVA Group and BBVA Mexico
- Principles for Responsible Investment (PRI)- BBVA Group and BBVA Mexico

BBVA Mexico is also a member of the United Nations Global Compact and contributes to the Sustainable Development Goals of the 2030 Agenda.

Climate Change

Focused on helping BBVA's customers change their behavior and promote the transition to a greener world. In this point, it is worth highlighting the financing of support for customers to manage the challenge of climate change for each industry and in general in matters such as:

- Energy Efficiency Focused on technologies that reduce energy consumption per unit of product.
- Circular Economy Managing recycling, use of new materials and responsible use of material resources.
- CO2 Reduction Promoting renewable energy and other clean energy sources, electric mobility, etc.

Alignment objectives (Global, including Mexico)	Energy and emissions (BBVA Mexico)	Sustainable construction (BBVA Mexico)
2030 alignment targets for carbon-intensive sectors:	100% renewable electricity purchased by 2024	17 BBVA buildings have ISO 14001:2015 certification
Oil and gas, Electricity generation, Cars, Steel, Cement, Coal (globally by 2040), Aviation, Maritime transport, Real estate, Aluminum, and Working in agriculture.	BBVA Mexico is working to reduce its CO2 ² emissions. In addition, it purchases and retires carbon credits in an amount equivalent to its CO2 emissions that it has not been able to reduce, from categories over which it has direct management capacity (i.e., scopes 1, 2, and some categories of scope 3).	8 buildings have CertificationLeadership in Energy and Environmental Design (LEED)

² For more detailed information, please consult our Annual Financial and Sustainability Report.

Inclusive growth

The objective of this part of BBVA Mexico's sustainability strategy seeks to stimulate economic growth that leaves no one behind and creates opportunities for all. By fostering inclusive growth, we actively contribute to the social development of the societies in which we operate. This approach not only benefits people but also strengthens the social fabric, creating a more cohesive, equitable, and resilient society where everyone has the potential to prosper. The Inclusive Growth strategy encompasses three areas:

Customers

We contribute to Mexico's social development through:

- Financing inclusive infrastructure
- Strengthening businesses, SMEs, entrepreneurs, and microenterprises
- Product design for vulnerable customers
- **1.8** millions of digital accounts for unbanked customers (latest available information, 2024)

Society

We invest in the community to promote inclusive growth:

- BBVA Mexico Foundation
- +1,800 million pesos in programs that impact society, transforming the lives of 1.6 million people (BBVA Foundation, latest information available 2024)
- Financial Education

The Financial Education Program has impacted **7.4** million³ people through the portal, workshops, alliances, and communication with a formative approach that improves society's financial health.

Employees and suppliers

We operate in a responsible, inclusive, and sustainable manner with:

Our employees

- Diversity and inclusion
- Health and well-being
- Equal compensation
- Skills for the future
- Commitment to sustainability

51% of our staff is made up of women

and our suppliers

 Respect for Human Rights in our suppliers and their employees

³ Information as of 2Q 2025.

BBVA Mexico allocates 578 million pesos per month for hybrid and electric mobility

According to BBVA Mexico's Automotive Banking, as of the end of May 2025, 15% of its portfolio corresponds to sustainable vehicles, which is equivalent to an average monthly investment of 578 million pesos in hybrid and electric mobility, reflecting a year-on-year growth of 47%.

Financing for sustainable vehicles increases. BBVA Mexico and its automotive ally Omoda Jaecoo, after more than two years of collaboration, continue to promote sustainable mobility with the launch of the Jaecoo 7 PHEV plug-in hybrid SUV, thus expanding transportation options in the country.

The synergy that BBVA Mexico and Omoda Jaecoo have consolidated generates results that favorably impact the mobility of their clients, while allowing the consolidation of the image of vehicles from China as a viable option due to their quality and price.

BBVA Mexico and BYD boost the growth of hybrid and electric mobility

BBVA Mexico and Chinese automaker BYD reaffirmed their commitment to consolidate the financing of electric and hybrid vehicles in the country, marking a milestone in the promotion of more sustainable mobility. This strategic alliance seeks not only to strengthen the automotive sector, but also to contribute to the reduction of carbon emissions, aligning with the sustainability objectives of both companies.

With this initiative, BBVA Mexico and BYD not only seek to democratize access to new energy vehicles, but also to position Mexico as a benchmark in the adoption of clean technologies in the automotive sector, facilitating people's transition towards more sustainable mobility.

Macro Environment

The economic activity has slowed down in the first half of the year, in an environment marked by high uncertainty, in which the impact of tariffs imposed by the U.S. administration is added to the effects of recent internal reforms and the fiscal consolidation process.

In this context, BBVA Research has revised its GDP growth forecast for 2025 from 1.0% to -0.4%. Likewise, the economy will eventually benefit from relatively moderate inflation (4.3% in June and predictably close to 3.9% in December), the reduction of interest rates, which were cut to 8.0% in June and could reach 7.0% in December, as well as possible structural gains related to export tariffs to the United States lower than those of China and other competing countries.

Regarding the banking system, according to data from the National Banking and Securities Commission (CNBV) at the end of May 2025, the credit volume increased by +11.1% year-on-year, with growth in all main portfolios: consumer credit (+13.9%), housing credit (+6.3%) and enterprises credit (+13.8%). The growth of bank deposits (demand plus time deposits) remained slightly below credit growth (+9.1% year-on-year as of May 2025), with growth in time deposits (+8.1%) and demand deposits (+9.6%). For its part, the system's delinquency rate remained at 2.1% at the end of May 2025 and ample capital indicators.

Management Discussion & Analysis (MD&A)

Commercial Activity

Loan portfolio at Stage 1 and Stage 2

The first six months of 2025 have been months of high volatility in a challenging national and international economic environment, locally marked by interest rate cuts. In this context, BBVA Mexico has shown growth in its respective portfolios, affirming its commitment to the country to continue promoting credit to families and businesses, maintaining solid growth and adequate asset quality during the first half of 2025.

As of June 2025, the current loan portfolio stages 1 and 2 reached 1,960,005 million pesos, representing an interannual growth of 11.5%. This growth was explained by a solid performance in both the commercial segment and loans oriented towards individuals and families.

BBVA Mexico maintains its leadership position in the national banking system, with a market share of over 25%, according to figures from the National Banking and Securities Commission (CNBV, May 2025).

The commercial portfolio, which includes companies, government, and financial entities, reached 1,065,386 million pesos, registering an annual growth of +11.2%. The corporate loan segment grew 12.5% annually, reaching 814,851 million pesos, reflecting the implementation of commercial strategies aimed at corporate clients and the bank's focus on supporting the financing needs of the productive sector.

The public sector financing registered a balance of 195,598 million pesos.

BBVA Mexico, committed to the development of small and medium-sized enterprises, remains the banking institution with the greatest support for this strategic segment of the country. As of June 2025, the portfolio aimed at small and medium-sized enterprises (SMEs) reached a balance of 147,962 million pesos, representing an annual growth of 19.6%, driven by digitalization initiatives and the implementation of credit schemes through point-of-sale terminals (POS).

Through the "Banco de Barrio" program, the bank has financed more than 461 thousand micro-enterprises, deployed more than 330 thousand point-of-sale terminals, and strengthened a specialized support network, supporting digital transformation in this strategic sector.

During the first half of 2025, the credit portfolio for families and individuals registered a balance of 885,486 million pesos, representing an inter-annual growth of 11.4%. In particular, credit cards showed an outstanding performance, reaching a balance of 206,786 million pesos, with an annual increase of 13.6%. This growth was driven by a favorable consumption environment and supported by promotional campaigns, which has allowed placing more than 1.4 million new cards so far this year.

During the first half of 2025, personal and payroll loans recorded an annual growth of 11.6%, reaching a balance of 232,479 million pesos. Reaching 1.4 million new loans granted so far this year.

In the automotive segment, BBVA Mexico stood out with an outstanding performance, consolidating its leadership position in the banking system. The balance of automotive financing reached 72,508 million pesos, representing a year-on-year growth of 23.6%, placing it among the most dynamic items in the credit portfolio.

This result was reinforced by the entry of new brands into the Mexican market, such as BYD, Neta Auto, and Great Wall Motor, which have expanded the offer of electric and hybrid vehicles with competitive prices. BBVA Mexico anticipated this trend through strategic alliances with these automakers, which has allowed it to attract new customers. This includes financing for electric and hybrid vehicles with preferential rates and flexible terms, leasing schemes that facilitate access without the need for purchase, insurance adapted to the type of vehicle with specific coverage for electric cars, as well as additional benefits linked to sustainability, such as special conditions for units with less environmental impact.

At the end of June 2025, the balance of the mortgage portfolio reached 373,713 million pesos, representing an annual growth of 8.0%. An environment of lower rates can translate into more accessible conditions for new mortgage financings, boosting demand in this segment.

Additionally, BBVA Mexico has promoted an innovative mortgage offer, including solutions for sustainable housing and digital options to streamline credit origination.

With a market share of over 25%, BBVA Mexico grants one out of every four mortgages in the country, contributing directly to the development of Mexican families' assets and the dynamism of the construction sector.

Non-performing loans Stage 3

At the close of June 2025, the credit risk portfolio in Stage 3 reached a balance of 32,985 million pesos, representing a year-on-year growth of 16.9%. The non-performing loan ratio stood at 1.7% at the close of June 2025, a level that compares favorably with the average of the Mexican financial system.

BBVA Mexico maintains a prudent approach to credit risk management, recognizing that certain segments, such as consumer and housing loans, could show lags due to structural or seasonal factors.

For its part, the coverage ratio for the credit risk portfolio in Stage 3 remained at a solid level of 186%.

Deposits

BBVA Mexico consolidated its leadership in bank deposits by reaching a total balance of 1,912,632 million pesos at the end of June 2025, representing an annual growth of 13.9%. This performance has allowed it to maintain a market share of 23.5%, confirming its leading position and trust among those who save in the country.

Demand deposits remained one of the main sources of funding, with a balance of 1,600,619 million pesos, equivalent to 84% of the total, and an annual growth of 11.9%. Meanwhile, time deposits registered a significant increase of 25.0%, reaching 312,013 million pesos.

This solid growth has been driven by the strengthening of digital channels, which allow customers to manage their resources quickly, securely, and remotely, as well as by initiatives focused on financial education and the promotion of formal savings. Together, these elements, added to the institutional soundness of the bank, have been key to efficiently attracting resources in a highly competitive environment.

Results

BBVA Mexico achieved solid financial results as of the first half of 2025, reaching a cumulative net income of 49,443 million pesos, representing a 7.7% growth compared to the previous semester. This performance reflects a favorable evolution of the net interest income leveraged by a growth in loan activity, as well as good results in terms of trading income and net commissions.

Net Interest Income

During the first half of 2025, BBVA Mexico's net interest income grew 8.0% compared to the same period in 2024, reaching 114,070 million pesos. This behavior is largely explained by the continuous expansion of the loan portfolio in profitable segments and good management of our funding cost.

During the quarter, the net interest income remained in line with the previous quarter's level. This stability was due to a decrease in income associated with the investment portfolio in securities.

The net interest income adjusted for credit risks grew 7.4% annually, reaching 85,711 million pesos.

Provisions during the first six months of the year stood at 28,359 million pesos, with a 10.1% year-on-year increase, consistent with the growth of the credit portfolio.

BBVA Mexico's risk premium remained at a stable level of 3.0% at the end of June 2025.

Commissions and fees

As of the first half of 2025, BBVA Mexico reported net fees and commissions totaling 24,288 million pesos, marking a 5.7% year-on-year increase. This growth was primarily attributable to elevated transactional activity, stemming from robust consumption dynamics, and the strong performance of commissions derived from investment funds.

Sequentially, net commissions registered a decrease of 3.0%, largely due to an increase in commissions paid, particularly for incentive concepts and campaigns for the credit card product.

It is worth noting that, despite the above, commissions linked to investment funds grew 5.7% sequentially, which confirms the growing interest of clients in savings and investment instruments.

Trading income

During the first half of 2025, BBVA Mexico reported an intermediation result of 9,356 million pesos, representing a 33.8% increase compared to the first half of 2024, mainly due to gains from the trading of derivative financial instruments.

Sequentially, the intermediation result showed a 12.4% growth, primarily driven by higher returns from foreign exchange trading and investments in financial instruments.

Other income (expenses) of the operation

During the first half of 2025, other operating income (expenses) registered a negative result of 4,002 million pesos, remaining at similar levels to those observed in the same period of the previous year. This behavior continues to largely reflect the payment of fees to the IPAB, a structural component corresponding to the operation of the Mexican financial system.

From a sequential perspective, the result from other income (expenses) showed a moderate deterioration of 2.2% compared to the previous quarter. This decrease was mainly explained by lower sales of real estate and furniture, as well as by the recognition of higher legal and labor contingencies during the period.

Non-Interest Expenses

During the first half of 2025, administrative and promotional expenses totaled 47,298 million pesos, representing an annual growth of 10.3%, reflecting business advancement, continuous strengthening of digital capabilities, and the implementation of a customer-centric strategy.

Expenses for personnel, administration, and operation reached 35,577 million pesos, reflecting a 9.7% year-on-year increase, consistent with the institution's operational growth.

Sequentially, administrative and promotional expenses remained at similar levels to the previous quarter, reflecting the bank's sustained effort to maintain efficient control over operating expenses. Thus, at the end of June 2025, the bank reported an efficiency ratio of 32.9%, a competitive level compared to the banking system.

The institution has continued to strengthen its infrastructure, with 1,627 branches, 14,277 ATMs, and a workforce of 44,500 employees, complementing its powerful digital platform, used by more than 33.0 million customers, 78% of whom are mobile.

BBVA Mexico's strategy remains focused on profitable and scalable growth, prioritizing investments in technology, digital banking, and automation, without compromising control of operating expenses.

Capital and liquidity

Capital

BBVA Mexico's robust business performance is substantiated by its consistently strong key ratios and indicators. As of June 2025, the estimated capitalization index for BBVA Mexico was 20.1%, comprising 16.2% basic capital and 3.9% supplementary capital.

BBVA Mexico maintains a robust capital position, the result of a strong capacity for organic capital generation, prudent risk management, consistent strategic focus over time, and a solid reputational standing. This combination of factors has allowed the bank's capital indicators to comfortably exceed the minimum levels required by regulation. In recognition of its systemic relevance, BBVA Mexico has been ratified by the local regulator as a local systemically important multiple banking institution, classified in Grade IV, being the only bank to achieve this category.

The regulation on Total Loss Absorbing Capacity (TLAC) became effective in June 2021. As a result, the General Provisions Applicable to Credit Institutions were amended by the regulator to integrate this international standard. This modification introduced a net capital supplement for institutions identified as locally systemically important.

This supplement is scheduled for a progressive annual increase, commencing in December 2022 and achieving its designated target level by December 2025. For BBVA Mexico, this supplement presently totals 4.875%, which is then added to the 12% minimum capital requirement.

BBVA Mexico declared dividends for 15,000 million pesos on June 17, 2025, and they were paid on June 25, 2025.

Liquidity

BBVA Mexico continues to maintain ample liquidity levels despite high portfolio growth. The liquidity ratio, defined as loan portfolio stage 1 and 2, between demand and time deposits, stood at 102.0% at the end of June 2025. The short-term indicator, defined as Liquidity Coverage Ratio ("LCR"), stood at 149.9%, compared to the regulatory minimum of 100%.

It is important to mention that, derived from information disclosure requirements and with the aim of promoting a stable funding profile in relation to the composition of assets and off-balance sheet activities, the Net Stable Funding Ratio (NSFR) is disclosed, which at the first half of the year stood at 128.4%.

During April 2025, BBVA Mexico successfully issued Social Bonds for a total amount of \$1,800 million pesos, in two tranches. The first, with ticker symbol BBVAMX 25S, for an amount of \$900 million pesos at a variable rate with a five-year term; and the second, BBVAMX 25-2S, for an amount of \$900 million pesos at a fixed rate with an eight-year term. The use of proceeds will be focused on the SME segment and has the certification of an Independent Third Party (Second Party Opinion), Det Norske Veritas (DNV), and was carried out under the BBVA Group's Sustainable Debt Financing Framework, which is aligned with the UN Sustainable Development Goals and ICMA principles. In addition, it received local scale credit ratings of AAA(mex) and mxAAA granted by Fitch and S&P, respectively.

PROFITABILITY

a) Adjusted Net Interest Margin (NIM): Financial margin adjusted for credit risks (annualized) / Average productive assets.

Average Earning Assets = Cash and Cash Equivalents + Investments in Financial Instruments + Repurchase Agreement Debtors + Securities Loans + Derivative Financial Instruments + Valuation Adjustment for Financial Asset Hedging + Credit Portfolio with Credit Risk Stages 1 and 2 + Benefits to be Received in Securitization Operations.

Adjusted Net Interest Margin (NIM): Financial margin adjusted for credit risks (annualized) / Average productive assets of 5 quarters (12 months).

b) Net interest margin (NIM): Financial margin (unadjusted for credit risks, annualized) / Average total assets.

Since 2Q24 and 6M24 under the CNBV methodology:

Net interest income (unadjusted for credit risk, annualized) / 5-quarter (12-month) average total assets.

- c) Operating efficiency: Expenses (annualized) / Average total assets.
- d) Efficiency index: Administration and promotion expenses / Financial margin + commissions and fees, net + brokerage result + other income (expenses) from the operation.
- e) Productivity Index: Commissions and fees, net / Administration and promotion expenses.
- f) Return on Equity (ROE): Net Income (annualized) / Average Shareholders' Equity.

Since 2Q24 and 6M24 under CNBV methodology:

Return on Equity (ROE): Net Income (annualized) / Average Shareholders' Equity 5 quarters (12 months).

g) Return on Assets (ROA): Net Income (annualized) / Average Total Assets.

Since 2Q24 and 6M24 under CNBV methodology:

Return on Assets (ROA): Net Income (annualized) / Average Total Assets 5 quarters (12 months)

ASSET QUALITY

- h) Delinquency ratio: Balance of the Credit Portfolio with stage 3 credit risk at the end of the quarter / Balance of the total Credit Portfolio at the end of the guarter.
- i) Coverage ratio: Balance of the preventive allowance for credit risks at the end of the quarter / Balance of the Credit Portfolio with stage 3 credit risk at the end of the quarter.

INFRASTRUCTURE

ATMs: Those that were in operation during the quarter.

SOLVENCY (Information from BBVA Mexico)

- j) Core Capital Index: Core Capital / Assets subject to credit, market and operational risk (applied in Mexico as of January 2013).
- k) Total core capital ratio: Total core capital / Assets subject to credit, market and operational risk.
- I) Total capital ratio: Net capital / Assets subject to credit, market and operational risk.
- m) Leverage Ratio: Measure of capital / Measure of exposure.

LIQUIDITY

n) Liquidity ratio: Liquid assets / Liquid liabilities.

Liquid assets: Cash and cash equivalents + Unrestricted negotiable financial instruments + Unrestricted financial instruments for collection or sale.

Liquid liabilities: Demand deposits + Demand interbank and other institution loans + Short-term interbank and other institution loans.

- o) Liquidity: Portfolio with credit risk stage 1 and stage 2 + credit portfolio valued at fair value / Bank deposits (demandable deposits + total term).
- p) Liquidity Coverage Ratio (LCR): 30-day Net Stressed Assets / Net Outflows (BBVA Mexico data). Quarterly average. Previous information.
- q) Total Amount of Stable Funding Available / Total Amount of Stable Funding Required

Notes:

Average balances = 12-month average balance of (5 quarters) Annualized Data = (Flow of the quarter under study * 4).

In accordance with the "Resolution amending the General Provisions applicable to credit institutions," published in the Official Gazette of the Federation on April 16, 2024, this results report, starting in 2Q24 and 6M24, publishes financial indicators that are consistent with those contained in the financial indicators published by the CNBV.

FinCEN Orders

In this regard, on June 25, 2025, the Financial Crimes Enforcement Network ("FinCEN"), an agency of the United States Department of the Treasury (the "United States"), issued a series of orders designating three Mexican financial entities as subjects of special concern in matters of money laundering, in relation to illicit opioid trafficking. As a result of these orders, FinCEN has prohibited all financial institutions in the United States from making any transfers of funds to or from these institutions. Likewise, on June 26, 2025, the National Banking and Securities Commission mandated the management intervention of these institutions, with the purpose of protecting the interests of savers, investors and the general public, through the appointment of a receiver or precautionary administrator, as appropriate, during the corresponding intervention period.
